

## **INDEPENDENT AUDITORS' REPORT**

**To the Board of Directors of  
HOVS HOLDINGS LIMITED**

### **Report on the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of **HOVS Holdings Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the Act) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2020, its net profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**Emphasis of Matter:**

We draw your attention to note no 7(c) of the financial statements with regards to Management's assessment of, inter-alia, realisability of receivables from a related party of Rs. 100,822 thousands due to COVID 19 pandemic outbreak. The management apart from considering the internal and external information upto the date of approval of this standalone statements, the management has also performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the management expects to recover the carrying amount of these assets.

The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements. Considering the continuing uncertainties, the management will continue to closely monitor any material changes to future economic conditions.

Our Opinion is not modified in respect of this matter

**Responsibilities of Management and those charged with Governance for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Account) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors

in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of and identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Other Matters:**

The audit report has been prepared for the purpose of enabling Ultimate Holding Company's financial reporting requirement under the Act/to be submitted before Reserve Bank of India with Annual Performance Report (APR) and should not be used for purposes other than that which it is meant for.

## **1. SIGNIFICANT ACCOUNTING POLICIES**

**Following are the group's significant accounting policies as followed by the Company**

### **Overview of the Company:**

HOVS Holdings Ltd is 100% subsidiary of HOV Services Ltd. The Company was registered in China and its office is situated in Hong Kong.

#### **1.1 BASIS OF ACCOUNTING**

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified under the Companies (Indian Accounting standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendments Rules 2016 prescribed under section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014.

The financial statements are prepared and presented on accrual basis and under the historical cost convention.

#### **1.2 USE OF ESTIMATES AND JUDGEMENTS**

The preparation of the financial statements requires that the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle of twelve months and other criteria set out in Schedule III to the Companies Act, 2013.

#### **1.3 PROPERTY, PLANT AND EQUIPMENT & INTANGIBLE ASSETS**

##### **Property, Plant and Equipment**

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Costs include freight, import duties, non-refundable purchase taxes and other expenses directly attributable to the acquisition of the asset.

**Intangible Assets**

Intangible assets are held on the balance sheet at cost less accumulated amortisation and impairment losses. Intangible assets developed or acquired with finite useful life are amortized on straight line basis over the useful life.

**Depreciation/amortisation:**

Tangible Assets - Depreciation on Property, Plant and Equipment is provided based on useful life and in the manner prescribed in part C of Schedule II of the Companies Act, 2013 or as per Management's estimate of useful life of the assets.

Intangible Assets – Other Software products are amortized over its period of license.

The Company reviews the useful lives and residual value at each reporting date.

**1.4 IMPAIRMENT OF NON FINANCIAL ASSETS**

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets are impaired. If any such indication exists, the Company estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

**1.5 REVENUE RECOGNITION**

Revenue is recognized to the extent that it is probable that the economic benefit will flow to the Company and the revenue can be measured reliably.

**Rendering of services:**

Revenue from sale of services are recognized when the services are rendered.

In respect of consultancy services the income is recognized as and when the invoices are raised and accepted or certified by the party.

Effective April 1, 2018, the company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as at April 1, 2018. There was no impact on adoption of Ind AS 115.

**Other Income**

Interest income is recognized on a time proportionate basis taking into account the amounts invested and the rate of interest.

## 1.6 FINANCIAL INSTRUMENTS

### Financial assets - Initial recognition

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets other than trade receivables are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

### Subsequent measurement

Financial assets, other than equity instruments, are subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

- (a) the entity's business model for managing the financial assets and
- (b) the contractual cash flow characteristics of the financial asset.

#### (a) Measured at amortised cost:

A financial asset is measured at amortised cost, if it is held under the hold to collect business model i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

#### (b) Measured at fair value through other comprehensive income (FVOCI):

A financial asset is measured at FVOCI, if it is held under the hold to collect and sell business model i.e. held with an objective to collect contractual cash flows and selling such financial asset and the contractual cash flows are solely payments of principal and interest on the principal outstanding. It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method. The losses arising from impairment are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in the OCI is reclassified from the equity to Statement of Profit and Loss.

#### (c) Measured at fair value through profit or loss (FVTPL):

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised in the Statement of Profit and Loss.

### Equity Instruments:

All investments in equity instruments classified under financial assets are subsequently measured at fair value. Equity instruments which are held for trading are measured at FVTPL.

### Impairment

The Company recognises a loss allowance for Expected Credit Losses (ECL) on financial assets that are measured at amortised cost and at FVOCI.

The Company's trade receivables or contract revenue receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal

to life time expected losses i.e. expected cash shortfall, being simplified approach for recognition of impairment loss allowance.

For financial assets other than trade receivables, the Company recognises 12-month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition.

The impairment losses and reversals are recognised in Statement of Profit and Loss. For equity instruments and financial assets measured at FVTPL, there is no requirement for impairment testing.

#### **De-recognition**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers rights to receive cash flows from an asset, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

#### **Financial Liabilities**

##### **Initial Recognition and measurement**

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are initially recognised at fair value net of transaction costs for all financial liabilities not carried at fair value through profit or loss.

The Company's financial liabilities include trade and other payables, loans and borrowings.

##### **Subsequent measurement**

Financial liabilities measured at amortised cost are subsequently measured at using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

##### **De-recognition**

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

##### **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**1.7 FOREIGN CURRENCY TRANSACTIONS**

**a) Initial Recognition**

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of Profit and Loss of the year.

**b) Measurement of Foreign Currency Items at the Balance Sheet Date**

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these transactions are charged to the Statement of Profit and Loss.

**1.8 TAXES ON INCOME**

Income tax comprises current and deferred tax. Income tax expense is recognized in the statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements. Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax assets are not recognised where it is more likely than not that the assets will not be realised in the future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

**1.9 PROVISIONS AND CONTINGENCIES**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources or an obligation for which the future outcome cannot be ascertained with reasonable certainty. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

**1.10 CASH AND CASH EQUIVALENTS**

Cash and Cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value where original maturity is three months or less.

**1.11 CASH FLOW STATEMENT**

Cash flows are reported using the indirect method where by the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

**1.12 EARNINGS PER SHARE**

Basic EPS is arrived at based on net profit after tax available to equity shareholders to the weighted average number of equity shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive.

**1.13 EXCEPTIONAL ITEMS**

When an item of income or expense within profit or loss from ordinary activity is of such size, nature or incidence that their disclosure is relevant to explain the performance of the Company for the year, the nature and amount of such items is disclosed as exceptional items.

## HOVS Holdings Limited

### Notes forming part of financial statements for the year ended March 31, 2020

(All amounts in INR Thousands, unless otherwise stated)

#### 6 Financial Instruments

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

As per IndAs 107 "financial Instruments: Discloser" , fair value disclosures are not required when the carrying amounts reasonably approximate the fair value. Accordingly fair value disclosures have not been made for the following financial instruments:-

Loans and advances

Cash and cash equivalents

#### 7 Risk Management

The Company's risk management policies are same as per the Group's risk management policies and governed and managed by the Group.

##### Financial risk management objectives and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The company's activity expose it to market risk, liquidity risk, commodity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, The Company's financial risk management policy is set by the Manager and governed by overall direction of Board of Directors of the Company.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency payables and loans and borrowings.

Sr. Risk	Exposure arising from	Measurement	Management
A Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Ageing analysis Credit ratings	Diversification of bank deposits, credit limits.
B Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of bank deposits and timely receipt.
<b>A Credit risk</b>			
Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual credit period and limits are set accordingly.			
The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information to decide on this such as:			

## HOVS Holdings Limited
